Africa will have to find ways and means of gainfully opening up and competing in the global economy, otherwise face the risk of increased marginalisation. The foregoing considerations point to a cluster of strategic issues that would be rather key to African development in the coming decade.

Key Issues in African Development in the 21st Century

Africa's development in the first half of this decade has been dominated by multiple transi-tions which, in some countries, often have run concurrently: from war to peace, from one-party rule to multi-party governance, from apartheid to non-racial democracy, from command economies dominated by govern-ments and sheltered from imports to free markets, private enterprise and more liberal trade.

Overview of Economic and Social Development in Africa ...

Africa, a continent endowed with immense natural and human resources as well as great cultural, ecological and economic diversity, remains underdeveloped. Most African nations suffer from military dictatorships, corruption, civil unrest and war, underdevelopment and deep poverty.
