WHEELS AND TYRES.

The standard wheels are heavy and pretty uninspiring looking, so a replacement set should be high on your list of priorities. 8x18in wheels are generally the way to go, usually with 225/40x18 tyres, as unfortunately much wider usually gives clearance issues.

Audi S3 Intake and Exhaust Tuning. The next area for modification is the intake and exhaust. Derestricting the airflow into the engine is the primary part of tuning so get a better flowing air filter. Induction kits sound great but due to the warm air in the engine bay they will not add noticeable power and actually rob you of power.
