Car Bodywork Repair Guide

Make sure to mask off any areas that may get primer or paint of them before proceeding. In some cases, the part should be primed and painted off the vehicle. If so, remove the damaged body part and follow the previous steps with the new one. If your car features fiberglass body parts, you will have to use a different procedure to repair the damage.

Auto Body Repair For Beginners: A How To Guide - Autos.com

Sanding is important when repairing car body dents, dings and scratches, as well as buffing out a new paint job. However, use a sanding block or a sanding tool rather than your hands for auto body work. Sanding with just your hands often results in "natural" grooves and errors, sometimes even when you're very careful.
