The Center of the Cyclone: An Autobiography of Inner Space is a 1972 book by John C. Lilly published by the Julian Press. Content. The book explores the question of consciousness and the inner world of the mind, refracted through the experience of Lilly himself in the 1960s using the drug LSD and, particularly, flotation tanks and isolation. It also examines Lilly's notion of self-metaprogramming as a means to shape and direct certain experiences and gain autonomy and mastery over the ...

The Center of the Cyclone - Wikipedia

As the cyclone progresses across Earth's surface, the cold and warm fronts rotate about the center of low pressure. The motion of the storm system has similarities to that of a flying Frisbee®, that is, a Frisbee spins as it sails through the air (simultaneously exhibiting rotational and translational motions).

The main parts of a tropical cyclone are the rainbands, the eye, and the eyewall. Air spirals in toward the center in a counter-clockwise pattern in the northern hemisphere (clockwise in the southern hemisphere), and out the top in the opposite direction. In the very center of the storm, air sinks, forming an "eye" that is mostly cloud-free.
