### CR500 CNC billet water pump cover

Inside the heart of Jojo's 100-horsepower CR500 engine is a Wiseco forged piston. The piston undergoes a considerable amount of stress, given that Outlaw karting is all about mashing the throttle wide open in top gear (by the way, Owens' transmission only has fourth gear and needs to be bump-started by a truck or ATV).

AF-Motorycles Service Honda is the owner of the trademark 'AF500, and produced the CR500AF and other two-stroke dirt bikes for many years. Unfortunately because of the limited availability of two-stroke engines, and other parts used in the construction of the bikes these bikes are no longer being produced.

Can anyone point me to a web site that gives the engine number sequence by year for the Cr500. The Clymer manual that I have seems to show a sequence that is all over the place. Also going by Clymer I have 2 early motors with the short conrod and cases which show up as being 95 and 96 models, and I don t think the numbers have been tampered with.
