Master's Degree in Forensic Toxicology | UF Forensic ...

Simply put, forensic pharmacists are pharmacists who specialize in legal cases. They combine the science of pharmaceutical drug research with criminal justice and legal practice. They may be called upon to testify about the side effects of a drug, or they may perform research to determine the effect that a drug had in a person's death.

What Is a Forensic Pharmacist? | Career Trend

Forensic Toxicology is the study of the presence of toxic substance inside a body and the effect that they had on the individual. It encompasses methods and procedures from various disciplines such as analytical and clinical chemistry, and pharmacology to aid in the medical and legal investigation of death due to poisoning or drugs.
