## **Inpatient Vs Observation Quick Interqual**

Since observation patients are a type of outpatient, some hospitals have a special observation area or wing of the hospital for their observation patients. But, many hospitals put their observation patients in the same rooms as their inpatients. This makes it difficult for you to tell if you're an inpatient or an observation patient.

## **An Explanation of Inpatient vs. Observation Status**

Observation care should be utilized until it is determined that the patient can either be discharged or admitted as an inpatient. Observation services must be patient specific and not part of the
