Modes of Perceiving and Processing Information | Taylor ...

One of the fundamental differences between processing modes is the distinction between exogenous, automatic, passive processes and centrally controlled, active, attended processes. While these processing modes usually appear as rivals in psychological theories, the persistence of the dichotomy undoubtedly arises in the fact that humans characteristically show both forms of processing.

Modes of Perceiving and Processing Information

PERCEIVING AND PROCESSING INFORMATION: The Learning Cycle We perceive and process information and experiences in different ways. How we perceive information and experiences (how we take information and experiences in) varies along a continuum from "direct experience" to "abstract conceptualization."
