A style guide is a set of standards for the writing and design of content, defining the style to be used in communication within a particular organization. Basically, style guides are put together to clarify the way a group of people talk and write about the things they do. Think of authoring best practices.

Style Guides — Write the Docs

A style guide is used in MS Word documents to define a set of predefined fonts, sentence spacing, color, character size, and outline level. You can use a style to define headlines, sections, sentences, paragraphs, and the look and feel of your document. As you can see, a style guide is about more than just working with Microsoft Word Templates.
