Amazon.com: Customer reviews: Nightshades the paradoxical ...
General Vegetable Garden Care. Nightshades are a large and diverse family of plants. Most of these plants are poisonous, especially the unripe fruits. In fact, some of the more well known plants in this family include ornamentals such as Belladonna (deadly nightshade), Datura and Brugmansia (Angel's trumpet), and Nicotiana (tobacco plant) — all of which include poisonous properties that can cause anything from skin irritation, rapid heartbeat and hallucinations to seizures and even death.

Nightshade Family Vegetables: A List Of Nightshade Vegetables
In nature, the presence of alkaloids in nightshades serves as a natural insect repellent to prevent the plant from being destroyed. When these anti-nutrients are consumed, they are assumed to also cause problems with a person's digestive system, leading to inflammatory problems, intestinal disorders, and digestive upset.

14 Signs of Nightshade Sensitivity (and What to Do About It)
So, what are nightshades? Nightshades are a botanical family of plants, more technically called Solanaceae. These plants all have certain characteristics in common (like the shape of the flower and how the seed is arranged within the fruit–Wikipedia has a good description). There are more than two thousand plant species in the nightshade family, the vast majority of which are inedible and ...

Nightshades: The Paradoxical Plants book by Charles B. Heiser
Nicotine is found in tobacco plants (also a nightshade family member) as well as these common nightshade vegetables. Amounts of nicotine can range from 2-7 microgram/kg (a cigarette averages about 12 milligrams) but decrease with the fading of "green" coloring.

What Are Nightshades (and why you should avoid them ...
Nightshades are annuals or perennials and range in size from small herbs to small trees. The alternate leaves can be simple or pinnately compound and usually feature glandular or nonglandular trichomes (plant hairs). The leaves and stems are sometimes armed with prickles. The flowers have five petals that are often fused.
