Oracle Business Intelligence 12c (12.2.1.4.0) Downloads

OBIEE stands for Oracle Business Intelligence Enterprise Edition and is the BI solution from database supplier Oracle. The BI suite is the result of several of Oracle's acquisitions. They acquired applications such as Siebel, Hyperion, PeopleSoft and J.D. Edwards. BI solutions from different suppliers were combined to form the OBIEE suite.

OBIEE | Oracle Business Intelligence Enterprise Edition ...

All the above is possible only if OBIEE is in Enterprise mode. OBIEE has a simple option also like a single server simple domain. This will have only one AdminServer and all the modules like core modules, bi modules are deployed to the same admin server. This is good only for Development purposes. Even in this we cannot have like 2 AdminServers.

Or, "what actually happens when you press the Activate button in Enterprise Manager?". At the end of last week, I put a posting on the blog about WebLogic Server, and what it actually does within OBIEE 11g. In earlier releases of OBIEE, the application server played only a minor role but in the 11g release, WebLogic as we all know plays a major role.

So How Does Enterprise Manager work, Within OBIEE 11g?

OBIEE 11g Enterprise Deployment Guide Infrastructure • Adds additional redundancy and failover for mission-critical BI systems • Deploys HTTP

servers in a DMZ for security• Multiple redundant installs of WLS administration server• WLS installation and configuration files on a cluster filesystem• Use of VIPs, VHosts and other standard abstraction / virtualization techniques• Ultimate in resilience, but complex to set up and configure (though possible, and documented) T : +44 (0 ...
