The ball joint is a small part of your car, and the part itself is only going to cost between \$20-\$150 or more, depending on where you get it from and what kind of vehicle you own. It can take a little over an hour to get it replaced, so the full ball joint replacement cost will be between \$100 and \$400.

**The Complete Ball Joint Replacement Cost Guide**  
Perry: Ball joints come from the factory with two different designs. Some are serviceable, meaning they can be greased and lubricated periodically, while others on most newer vehicles are sealed, and the grease from the factory is meant to last the life of the joint. Ball joint replacement is usually performed when the joint becomes loose.
