The Structure Of The Chinese
Structure of Chinese Classical Chinese (□□) Until the early 20th century Classical Chinese (□□ wényán), was the main form of writing in China. There many regional variations in the forms of characters, and they also changed over time, but they were standardised during the Qin Dynasty (□□ - 221–206 BC).

The Structure of the Chinese script - Omniglot
The structure of China ’s government is that of a one-party rule. This model is based on the Leninist model, where the one governing party acts in the interests of the people. In China, this party is the Chinese Communist Party (CCP) which came into power in 1949 and established the Peoples Republic of China. Policy making is done through the domination of execution through its members in the government.

Structure and Function of China’s Government
The Communist Party of China (CPC) is the party in power in the country. The CPC has both central and local organizations. At the top is the Central Committee and, while when it is not in session, the Political Bureau and its Standing Committee exercise the power of the Central Committee.

How the Chinese government works | SCMP
The Chinese power structure consists of the PRC government and the CPC, while CPC executes authority by controlling the State Council and National Party Congress. The Chinese military takes instructions from the CPC and thus, is controlled by senior party leaders to ensure its loyalty to the CPC.

Overview of Chinese Power Structure - NOLASIA
A common sentence structure is in three parts: subject + predicate (verb) + object. Unlike English, most of the time in a simple Chinese sentence, the predicate is a verb, although sometimes it can be an adjective. For this guide we will refer to the predicate as a verb, unless stated otherwise. This is known as the trunk of a simple sentence.
